Problem-Solving

Leadership

Strong Communication

SUMMARY

BTech CS undergrad skilled in frontend dev & vibe coding. Quick to learn, build, and ship ideas into clean, functional web experiences. Collaborative, detail-oriented, and eager to contribute to real-world, fast-paced projects

WEB CONTENT APPLICATIONS

GIG SHEILD

First hackathon project. Built a full-stack web platform connecting gig workers to on-demand jobs with integrated micro-insurance plans covering climate disruptions and illness. Designed compensation system to protect daily wage workers from income loss due to weather events and health emergencies. It was made possible with the combined efforts of my team.
